

2014 Central District Spring Fire School

Wessington Springs Fire Department
210 Dakota Ave. S, Wessington Springs, SD 57382
February 22, 2014

Class 1 – SCBA Training & Confidence Course Exercise

The class will include basic classroom instruction and practical application of learned skills meeting the requirements of NFPA 1001. The hands-on portion will be completed using blacked out face shields and include basic search and rescue techniques. All students must have full structural PPE and SCBA.

Instructors: Lucas Jungemann and Dave Jensen, Wolsey Fire Department – 6 hrs. – class limit 30

Class 2 – Meth Lab Identification and Basic Fire Investigation and Evidence Preservation

The course covers information on the identification and hazards of Meth Labs that firefighters might encounter during a response, along with information for helping firefighter observations, evidence recognition, alternative overhaul, and the role of the fire service has in protecting the scene for an investigation.

Instructor: Chris Konrad, DCI Special Agent – 3 hour class (**Morning Only**) no class limit.

Class 3 – Responding to Propane Emergencies

This class will provide information as to the properties of LP Gas and its associated hazards. Students will be provided information on the properties of propane along with procedures to be used when dealing with a propane incident.

Instructor: Terry Hanson, Gas Training Specialties LLC – 3 hour class (**Afternoon Only**) no class limit.
